PRICE LIST 2024

MADE IN SWEDEN. DESIGNED FOR THE WORLD SINCE 1889.

For over a century, Kasthall has been a pioneer in the interior design industry, and this year marks our 135th-anniversary celebration. We combine elegant designs, materials of the utmost quality, and superior craftsmanship to make unique rugs that define every room and floor. Working alongside architects and designers, we create beautiful homes, offices, retail stores, and hotels. Our rugs are also used in historical buildings and palaces, as we are a purveyor to the Royal Court of Sweden.

Though deeply rooted in Swedish traditions, our products and influence extend well beyond our borders. Today, we have a presence in over thirty countries, with flagship stores in premier destinations such as Stockholm, New York, and Milan. We continuously invite some of the world's most acclaimed designers and architects to initiate collaborations and gain inspiration from all over the world.

BRINGING RUG DESIGNS TO LIFE

We strive for perfection through passion. Each woven and hand-tufted rug is one of a kind and tailor-made. Using only the finest natural materials, we combine superior craftsmanship with exceptional design understanding to create handcrafted rugs of the highest quality. Each produced rug is thoroughly examined before receiving a

hand-signed label, marking it as a rug of utmost quality down to the very last thread.

CRAFTED TO LAST A LIFETIME

Our main ethos is longevity, and all our rugs are made to last a lifetime or longer. Producing timeless designs of the highest quality requires a deep understanding and respect for the materials we work with – which is another central part of our design philosophy. We choose materials with the utmost care, and our woven and hand-tufted rugs are almost exclusively made of wool and linen, both natural materials of the highest quality. As all our products are made to order and tailor-made, no natural resources are wasted on excess production or products that will never touch a floor.

WOVEN RUGS

Weaving is a craft that has been honed for thousands of years. Two perpendicular rows of threads, the warp and the weft, are interlaced in a variety of manners. The result is timeless and durable. Our woven rugs are made of yarn that we produce ourselves from nature's finest materials: wool and linen. This quality, combined with exceptional craftsmanship, creates hard-wearing, dirt-repellent rugs, each one with its individual texture and style. Our collections include rugs for both private homes and public spaces. Many of our designs are perfect for exclusive wall-to-wall carpeting.

HAND TUFTED RUGS

Tufting provides a multitude of possibilities in terms of patterns and forms. At Kasthall, we have created tufted rugs since 1972. This production method provides a wide range of artistic possibilities for detailed patterns, individual styles, and visual effects. Our tufters, like our weavers, must master a high level of craftsmanship at every stage of the creative process. We offer a large collection of hand-tufted rugs made of high-quality wool and linen in several brilliant designs. These include pieces with different pile heights and densities, ranging from long-pile to bouclé rugs.

TRADITION MEETS BOLD DESIGN

Arkad is a classic wool rug created in the ancient Swedish weaving tradition renowned for its abundance of patterns and colors. Arkad’s designs can be varied infinitely depending on preference, through a selection of twelve different patterns based on either mixed or single-colored yarns.

Through a play with patterns and color, our ambition is to challenge the conventional – combining bold graphic expressions and colors with more traditional shapes. Arkad thrives in the company of striking architecture and unique concept interiors. Choose from a total of 12 different patterns and 176 colors to create your own perfect Arkad.

THE ELEGANCE OF SMALL PATTERNS

When legendary textile designer Gunilla Lagerhem Ullberg was hired in 1987, one of her first assignments was to refine one of Kasthall's most iconic rugs. Her design made Häggå one of Kasthall's best-selling rugs ever – a shaft-woven rug with a semi-smooth feel that can be ordered either wall-to-wall or made-to-order. Häggå is the perfect foundation for a select room, public or private. Its outstanding durability and soft roughness provide opportunities for versatile use and distinctive interior design solutions.

The assortment of patterns and colors allows for creative freedom and endless possibilities to shape relaxing, yet elegant environments. Choose from 8 different patterns, and a total of 176 colors, to create your own custom-made Häggå.

Kasthall offers the option to add a sound absorbing felt backing to all flat weave constructions in our wall-to-wall range. The minimum quantity required is 400 sqm. The benefits of the backing is added sound absorption and increased comfort. This sandwich construction also reduces the installation time since it eliminates the drying time between the layers. We recommend that our carpets are installed by professional carpet fitters. Some carpets should be laid on underfelt with gripper strips, while others can be glued directly onto the floor. Contact us for more information and laying instructions. Due to the materials used and the different processes in production, dimensions of the carpet may vary by up to 3%. Note that variations in color and texture can arise between batches of yarn and dye baths.

Please note that certain restrictions apply to overlocking concave shapes/lines. For rugs with concave shapes/lines, please submit a drawing to Kasthall prior to placing the order. All runners should be laid on an underlay that prevents them from moving on all types of flooring. This extends the life of the carpet and reduces the risk of slipping. For more information about underlay, see page 94. In longer corridors the runner should be laid on underfelt with gripper strips.
